

Masonic Education Visitation Schedule 2009-2010

To the Worshipful Master and the Secretary,

This is the 2009/10 Inter-Lodge Visitation Schedule for Masonic Education for the London East and West Districts. As is traditional in the two districts, each lodge is scheduled both to visit another lodge in either district, giving a presentation on a topic of Masonic education, as well as to host a different lodge from either district, receiving a similar presentation. The object of these presentations is to provide learning opportunities to enable every Brother to enhance his understanding of the real meaning of Freemasonry.

Please note that this is a suggested schedule only. If a date selected for one of your visitations is not convenient, feel free to contact the secretary of the designated lodge to make your own arrangements for an alternative date. However, we ask that you do not change the lodge with which you are paired, so that every lodge will have contact with two lodges from the other district in the course of the Masonic year. Please inform either of the undersigned District Resource Leaders of your scheduling change. Any suggestions or concerns may be freely communicated to either of the undersigned. May your visits this year be truly rewarding!
